

Renata with a piece of her recent work. Aug 120/5a

## Aiming for the stars

ARTIST Renata Augusta Venturini could have foreseen her fate in the stars. Hailing from the heart of the art world, Italy, she studied at the Accademia di Belle Arti and gained diplomas in painting, sculpture and lithography.

Her unique work, much of which is renowned for its brilliance in Italy, can be seen in her first public showing in this country at the Eastbourne Central Library in Grove Road.

Renata studied astrology and mythology for many years and the majority of her works centre on mythological, astrological and esoteric themes.

Her work has been published in many leading art magazines and she has received praise from some of the top artists in the world.

This year alone Renata has been commissioned to sculpt a bronze for a fountain in Central Ravenna and a group of mythological figures in marble for the entrance to the Palazzo in Ravenna.
